Reasons for Allowance

1. This application has been examined. The amendment filed 6/26/06 has been entered.

2. The following is an examiner's statement of reasons for allowance: The amendment filed 6/26/06 places the application into condition for allowance by specifically incorporating into all of the independent claims the three dimensional desktop upon whose surfaces the icons are displayed in the three dimensional environment, and that the two dimensional web page converted to the useable form in the three dimensional environment is from the web server over the internet such that, a user may navigate content of the converted web page in a three dimensional manner including displaying content of the converted page in a persistent client window of the three dimensional desktop that is persistent even if the internet connection has been terminated. Baldwin et al and related art may convert between two and three dimensional interfaces, but do not show the specific conversion into the three dimensional desktop with the navigation and persistence features of the converted web page in the persistent client even when the internet connection is terminated, as combined with the other features of the independent claims. Also, note that claim 2 does meet the statutory requirements for U.S.C. 101 in that the medium as claimed and as brought out in the specification is the physical medium executing on the data processing system. The independent claims (1 – method, 2 - data process system-

Art Unit: 2174

readable medium, 17 – system) as brought out in the amendment are not set forth in the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
